Q.5	All organisms have two names-the first signifies the genus and the the:	e second signifies
Ans		
	X 2. Kingdom	
	X 3. Order	
	X 4. Class	
		0 11 12
		Question ID : 6009298289
Q.6	The toxin produced in a Staphylococcal food intoxication is a:	
Ans	1. Hepatotoxin	
	2. Neurotoxin	
	3. Enterotoxin	
	X 4. Aflatoxin	
		Ougation ID : 6000209204
		Question ID : 6009298294
Q.7	Which of the following is a common cause which lead to accidents	in a workshop?
Ans	1. Traditional technology	
	2. Nature of Project	
	X 3. Size of the tools	
	4. Unsafe working position	
		Question ID : 6009298297
		Question ID : 0009290291
Q.8	Which of the following is a characteristic of a lyophilic colloid?	
Ans X 1. They need special methods for preparation		
	2. They are reversible	
	X 3. They exhibit strong Tyndall effect	
	X 4. Viscosity of sol is similar to the dispersion medium	
		Question ID : 6009298292
		Question ID . 0009290292
Q.9	The major constituent of milk which ranges from 85.5 percent to 8	3.7 percent is:
Ans	1. Water	
	🗙 2. Fat	
	X 3. Protein	
	X 4. Lactose	
		Question ID : casesses
		Question ID : 6009298290

Q.10 V Ans			
Ans	Q.10 Which of the following is a basic law, which is applicable to any fluid?		
	. Landenie diecity er teladitiky		
	2. Newton's first law of motion		
	3. The conservation of mass		
	X 4. The third law of thermodynamics		
		Question ID : 6009298299	
	Gram reaction developed in 1884 by Danish physician Christian C	Gram is used only for:	
Ans	1. Bacteria		
	× 2. Fungi		
	X 3. Algae		
	X 4. Virus		
		Question ID : 6009298288	
		Question is : 3332525	
Q.12 T	The particles in true solution will not settle down but the particles suspension can settle upon centrifugation.	s in colloidal	
Ans	1. High speed		
	2. Medium Speed		
	× 3. Low friction		
	X 4. Low Speed		
	4. Low Speed		
		Question ID : 6009298293	
0.40.14			
Q.13 V Ans	What is cross breeding? 1. A system of breeding between random breeds		
	2. A system of breeding between two established breeds		
	3. A system of breeding between multiple breeds		
	4. A system of insemination through technology		
		Question ID : 6009298303	
	is a substance that deforms continuously under the shear (tangential) stress no matter how small the shear stress matter 1. Camphor 2. Fluid		
	★ 3. Proton★ 4. Solid		

Q.15 Which of the following is a common machining operation?

X 1. cooling

2. Drilling

3. Casting

X 4. hammering

Question ID: 6009298295

Q.16 Which of the following is a common process for joining metal parts and general fabrication work?

Ans

1. Pressing

2. Polishing

X 3. Lapping

X 4. Buffing

Question ID: 6009298296

Q.17 A cow apparently always in heat is called a ___

Ans

1. Buller

2. Bull calf

X 3. Heifer

X 4. Bullock

Question ID: 6009298302

Q.18 Which statement best describes viruses?

Ans

1. They cannot pass through bacterial filters

2. They can cause disease in both prokaryotes and eukaryotes

3. They are visible under a compound microscope

4. They can reproduce outside a host cell

Question ID: 6009298286

Q.19 Lactose is present in milk in the form of:

Ans

a true solution

2. an emulsion

3. a colloid

4. an ionic solution

Q.20

_____ do not fall within the Five Kingdom scheme.

Ans

- 🔨 1. fungi
- X 2. protozoa
- X 3. algae
- 4. viruses

Question ID: 6009298287

Section: Discipline2

Q.1 Which of the following equipment will be found at the Milk Collection Centre?

Ans

- 1. Bottle opener
- X 2. Gerber centrifuge
- 3. Milk sampler
- X 4. Atmospheric thermometer

Question ID: 6009298324

Q.2 Domesticated cattle are usually classified into two major groups namely European and:

Ans

- 🖊 1. Zebu
- X 2. Australian
- X 3. Asian
- X 4. African

Question ID: 6009298321

Q.3 Marginal Utility (MU) refers to the change in the Total Utility obtained from the consumption of an additional unit of a commodity. It may be expressed as:

Ans

- \times 1. MU × Δ TU × Δ Q = 1
- \times 2. $\Delta Q = MU \times \Delta TU$
- \times 3. $MU = \frac{\Delta TU}{\Delta O}$
- \checkmark 4. $MU = \Delta TU \times \Delta Q$

Question ID: 6009298312

Q.4 Which among the following is NOT a problem caused by dam?

Ans

- 1. Fragmentation and physical transformation caused by dams
- 2. Increase in rate of evaporation of stored water
- X 3. Social consequences of large dams due to the displacement of people
- X 4. Serious impact on riverine ecosystems

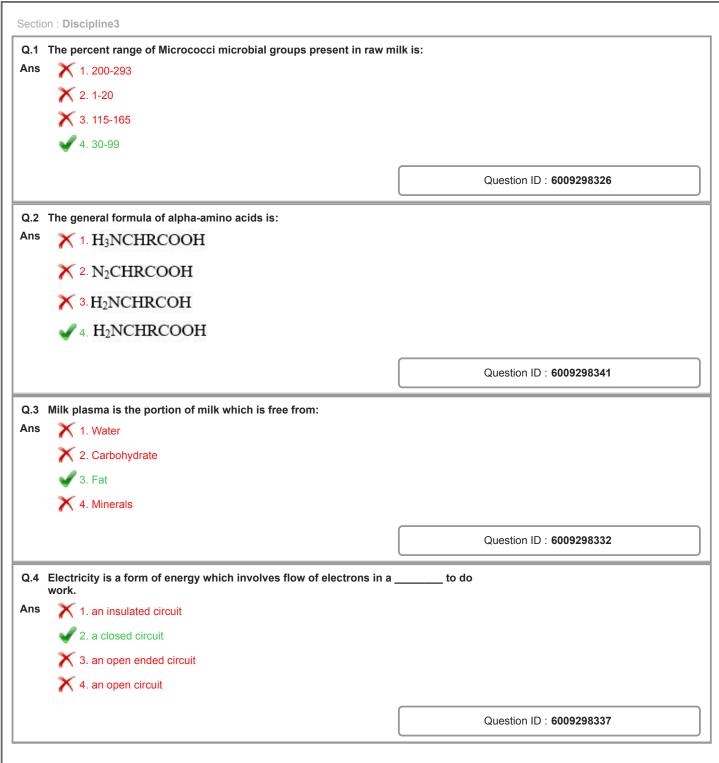

28/04/2021

Q.5	Which of the following is a component of environmental science?	
Ans	X 1. Sociology	
	X 2. Psychology	
	X 3. Mathematics	
	4. Biology	
		0 " " 10 2222224
		Question ID : 6009298317
Q.6	Who wrote the book 'General Theory of Employment, Interest and N introduced Macro Economics as a means to analyse economies?	loney' that
Ans	1. John Maynard Keynes	
	X 2. Karl Marx	
	X 3. Friedrich Engels	
	X 4. Adam Smith	
		Question ID : 6009298311
		Question is : 000200011
Q.7	is a general-purpose electronic spreadsheet used to organd analyze data.	nize, calculate,
Ans	1. MS Word	
	2. MS Excel	
	X 3. MS Power Point	
	X 4. MS Outlook	
		Question ID : 6009298314
		Question is : 000220014
Q.8	Technical drawings allows efficient communication among enginee as a record of the	rs and can be kept
Ans	1. Planning Process	
	X 2. Management Process	
	X 3. Execution Process	
	X 4. Budgeting Process	
		Question ID + 6000209206
		Question ID : 6009298306
Q.9	Who is considered as the Founder of Microeconomics?	
Ans	1. Karl Marx	
	2. Friedrich Engels	
	3. Adam Smith	
	X 4. Vladimir Lenin	
		Question ID : 6009298310

Q.10	Engineering Drawing can be classified in four major branches of engof the following is not one of them?	gineering. Which	
Ans	1. Chemical Engineering Drawing		
	2. Mechanical Engineering Drawing		
	X 3. Electrical Engineering Drawing		
	X 4. Civil Engineering Drawing		
		Question ID : 6009298307	
Q.11	During the two decades between 1951 and 1970, the annual growth production was just about:	rate in milk	
Ans	X 1. 5 percent		
	X 2. 10 percent		
	√ 3. 1 percent		
	X 4. 3 percent		
		Question ID : 6009298322	
		Question ID . 6009296322	
Q.12	2 The drawing sheets are designated by symbols. Which of the follow represent the largest size of the drawing sheet?	ing symbols	
Ans	1. A3		
	× 2. A2		
	√ 3. A0		
	X 4. A1		
		Question ID : 6009298308	
		Question ID . 6009296506	
Q.13	3 Method of folding of printed drawing sheets is determined as per:		
Ans	1. BIS: 46-2003		
	X 2. BIS SP: 80-2003		
	✓ 3. BIS SP: 46-2003		
	X 4. BIS SP: 36-2021		
		Question ID : 6009298309	
		Question ID . 6009296309	
Q.14	Which of the following is NOT an objective with which 'Man and the	Biosphere (MAB)	
Ans	programme' was launched by UNESCO? 1. To conserve representative samples of ecosystems		
70			
	2. To provide recreational space for human nature interactions		
	3. To promote and facilitate basic and applied research and monito	ring	
	X 4. To provide long-term in-situ conservation of genetic diversity		
		Question ID : 6009298320	

Q.15	15 Which one of the following is to be considered while fixing the price of milk from milk producer's point of view?			
Ans	★ 1. Plant capacity utilization			
	2. The cost of milk production			
	★ 3. The market objective of the processing plant			
	X 4. Consideration of the size of the population that is to be covered	by the milk scheme		
		0 11 15 11		
		Question ID : 6009298323		
Q.16	The stages in the process of soil formation are weathering and:			
Ans	X 1. Porosity of soil formula			
	X 2. Pedagogical analysis			
	X 3. Permeation			
	4. Pedogenesis			
		Outpotion ID + 6000200349		
		Question ID : 6009298318		
Q.17	Software design essentially involves three abstract concepts. Selenot an abstract concept:	ct the option that is		
Ans	1. Data Science			
	× 2. Algorithms			
	X 3. Data structures			
	X 4. File structures			
		Question ID : 6009298315		
Q.18	The cardinal utility approach to consumer analysis makes some as	sumptions. Which		
	of the following is one of them?			
Ans	1. Consumers intent is to get maximum satisfaction from given in	come		
	2. The consumer is emotional			
	3. Utility is subtractive			
	4. The consumer has unlimited income			
		Question ID : 6009298313		
	Which of the following is NOT true for a compiler?			
Ans	1. A compiler is a program that translates a sentence into a targe			
	2. A compiler is a program that translates a sentence while prese the process	rving its meaning in		
	3. A compiler is a program that translates a sentence from a sour	ce language.		
	✓ 4. A compiler is a program that translates a sentence in random f			
	-			
		Question ID : 6009298316		

28/04/2021

Proteins are defined as high molecular weight polymers of α -amino acids that are formed by living organisms. Except for glycine, all these amino acids have:

Ans

1. H-configuration

2. L-configuration

X 4. D-configuration

Question ID: 6009298333

Q.6 Propagation of thermal radiation takes place in the form of discrete quanta, each quantum having energy of:

Ans

$$\checkmark$$
 1. $E = hv$

$$\times$$
 2. $E \times h \times v$

- X 3. $E = \frac{h}{v}$
- \times 4. $h = \frac{V}{R}$

Question ID: 6009298330

Log Mean Temperature Difference (LMTD) is introduced in the design of heat Q.7 exchangers. It is represented by:

Ans

- \times 1. $LMTD = \frac{\Delta T_1 \Delta T_2}{Kn(\frac{T_1}{T_2})}$
- \times 3. $LMTD = \frac{\Delta G_1 \Delta T_2}{ln(\frac{T_1}{T_2})}$
- \checkmark 4. $LMTD = \frac{\Delta T_1 \Delta T_2}{ln(\frac{\Delta T_1}{\Delta T_2})}$

Question ID: 6009298331

Q.8 To maintain hygiene in milk production, the temperature of hot water used for sanitization of equipment should be at least:

Ans

- X 1. 66 °C
- 2. 77 °C
- X 3. 46 °C
- √ 4. 85 °C

Q.9 Resistance (R) is directly proportional to the:

Ans

- 1. Temperature of the conducting wire
- X 2. Cross sectional area of wire
- 3. Length of wire
- X 4. Atomic structure of the wire

Question ID: 6009298338

Q.10 According to the second law of Faraday, if e is the induced EMF in the coil, it is given by:

Ans

- X 1. $e = T \frac{(\phi_2 \phi_1)}{N}$
- $\times 2 \cdot \frac{t}{e} = N X (\phi_2 \phi_1)$
- X 3. $N = e^{\frac{(\phi_2 \phi_1)}{t}}$
- $\checkmark 4. e = N \frac{(\phi_2 \phi_1)}{t}$

Question ID: 6009298340

Q.11 Heat transfer is defined as energy-in-transit due to temperature:

Ans

- 🥒 1. Difference
- X 2. Being Static
- X 3. Similarity
- X 4. Dormancy

Question ID : 6009298328

Q.12 Milk is concentrated using heat energy. Based on the methods of treatment of milk, which state of milk is achieved through the concentration using heat energy?

Ans

- 💢 1. Paneer
- X 2. Ice-cream
- 3. Khoya
- X 4. Cheese

Q.13 The performance of a heat engine is measured in terms of its thermal efficiency which is the ratio of work output to heat absorbed by engine. Which of the following representation is true for the given statement?

Ans

- χ 1. $\eta_{n+2} = \frac{w}{\varrho}$
- \checkmark 2. $\eta_{th} = \frac{w}{Q}$
- χ 3. $\eta_{N+1} = \frac{w}{Q}$
- χ 4. $\eta_{n+1} = \frac{w}{\varrho}$

Question ID: 6009298336

Q.14 Nucleotides have three characteristic components. Which of the following is one of the components?

Ans

- X 1. Carbon
- X 2. Methionine
- 3. Phosphate
- X 4. Hexose sugar

Question ID: 6009298342

Q.15 Absolute Volume is defined as ______dimensional space occupied by matter.

Ans

- **X** 1. One
- 2. Fou
- 3. Three
- **X** 4. Two

Question ID : 6009298334

Q.16 What is the relative permeability of soft Iron?

Ans

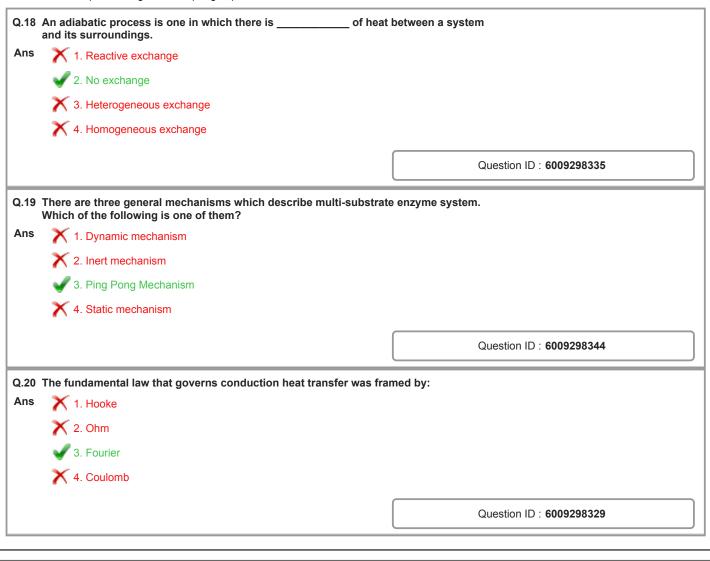

- 🖋 1. 800
- 2. 12000
- **X** 3. 6500
- **X** 4. 3500

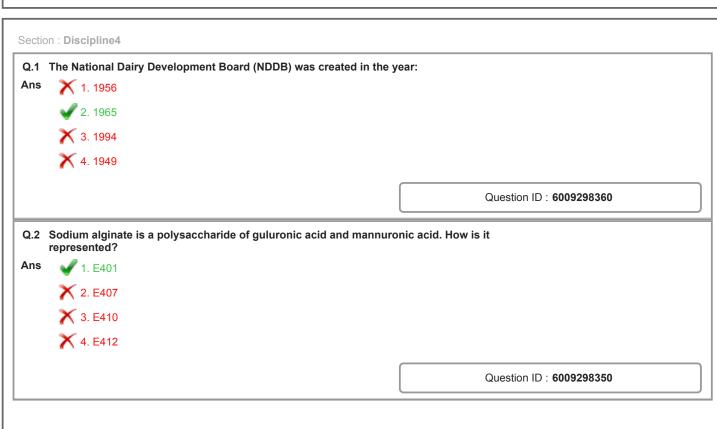

Question ID: 6009298339

Q.17 With the exception of a few catalytic RNA molecules, or ribozymes, the vast majority of enzymes are:

Ans

- X 1. Fats
- 2. Proteins
- X 3. Carbohydrates
- X 4. Minerals

	.3 Which of the following is a suitable location for the establishment of a Dairy plant?		
Ans	 1. Close to cattle sheds or source of milk 2. Away from environmentally polluted areas that can contaminate food 		
	X 3. Near state transport depots.		
	X 4. Preferably near grazing pastures or forests.		
		Question ID : 6009298362	
Q.4	By which of the following equations can Co-efficient of Performance represented?	e (COP) be	
Ans	\times 1. $\frac{C.O.F = refrigeration\ effect\ J/h}{Work\ of\ compression\ h}$		
	Work of compression h		
	∠ 2. C.O.P. = refrigeration effect kJ/h		
	× 3. $\frac{C.O.F = refrigeration \ effect \ k/h}{\text{Work of compression kJ}}$		
	\checkmark 4. $\frac{C.O.F = refrigeration\ effect\ kJ/h}{Work\ of\ compression\ kJ/h}$		
		Question ID : 6009298356	
Ans	 1. Semi-closed or semi-hermetic separator 2. Self-desludging separator 3. Closed bowl or hermetic separator 4. Gravity cream separator 		
		Question ID : 6009298352	
Q.6 Ans	Capacity of refrigeration system is expressed as 1. Kilo liter of refrigeration 2. Kilogram of refrigeration 3. Ton of refrigeration 4. Quintal of refrigeration		
		Question ID : 6009298354	
Q.7 Ans	What is the water content in percentage of a cream that contains 30 1. 34 percent 2. 20 percent 3. 44 percent 4. 64 percent	percent fat?	
		Question ID : 6009298351	

3. Milling and salting of the curd before putting in the hoop or mould

X 4. Temperature of renneting and subsequent cooking or scalding of the curd in the whey

Question ID: 6009298358

Q.11 Condensed and dried milks are manufactured in commercial plants as per the legal standards prescribed by:

Ans

X 1. FICCI and BIS

2. FSSAI and BIS

X 3. AGMARK and FSSAI

X 4. FoSCoS and AGMARK

Question ID: 6009298365

Q.12 The first ice cream cone was produced by Italo Marchiony in the year:

Ans

X 1. 1900

X 2. 1919

3. 1896

X 4. 1920

Q.13 The word 'cheese' is derived from a _____ word.

Ans

- X 1. Greek
- **2**. I
- X 3. French
- X 4. German

Question ID: 6009298357

Q.14 What is the percent of protein in the chemical composition of whole milk curds (Dahi)?

Ans

- X 1. 8.2-8.4
- **X** 2. 4.6-4.9
- **3**. 3.2-3.4
- **X** 4. 1.4-1.8

Question ID: 6009298346

Q.15 To reduce the multiplication of micro-organisms and to get low bacterial count in milk and milk products, raw milk should be immediately maintained at or below:

Ans

- 1.7 °C
- **X** 2.0 °C
- **√** 3. 5 °C
- **X** 4.1 °C

Question ID: 6009298353

Q.16 Which of the following equation was suggested by Lamb to determine the latent heat value of food?

Ans

- \times 1. L = $m_w \times 335 \text{ (kg-1)}$
- \times 2. L = 335 (kJ kg⁻¹)
- \times 3. L = $m_w \times 335$
- \checkmark 4.L = $m_w \times 335$ (kJ kg⁻¹)

Question ID: 6009298361

Q.17 The amount of energy used by a compressor is affected by some factors. Which of the following is NOT one of the factors?

Ans

- X 1. Compressor load
- 2. Moisture in the atmosphere
- X 3. Temperature difference of the system
- X 4. Type of compressor

Question ID: 6009298348

Section: Discipline5

Q.1 There are various advantages derived by the management from a good system of costing. Which of the following is one of them?

Ans

1. Cost accounting helps in making monopolistic estimates of market

2. Cost accounting helps in eliminating competition

3. Cost accounting aids price fixation

4. Cost accounting helps in estimating the future inventory

1. Stationary cylindrical surfaces with scraped surface evaporator 2. Tubular surfaces with natural or forced circulation 3. Hyperbolic surfaces with artificial circulation 4. Flat heating surfaces Question ID: 6009298372 Q.3 In the word Extension, "ex" meaning "out"; and, "tensio" meaning "stretching" has its roots in which of the following languages? Ans 1. German 2. French 3. Latin 4. Sanskrit Question ID: 6009298382 Q.4 When was Statistical Quality Control developed? Ans 1. During the French Revolution 2. During World War II 3. During World War I 4. During the Cold War Question ID: 6009298385 Q.5 Percentage of bacteria which can be removed by Microfiltration technique is: Ans 1. 85 percent 2. 99.6 percent 3. 23 percent 4. 63 percent Question ID: 6009298367 Q.6 The subject OPERATIONS RESEARCH is a branch of _ Ans X 1. Physics 2. Account keeping 3. Literature 4. Mathematics Question ID: 6009298379

https://cdn.digialm.com//per/g01/pub/1258/touchstone/AssessmentQPHTMLMode1/1258O21161/1258O21161S12D1020/16191010948072576/112...

Q.7 Where did Gandhiji establish the Sevagram Ashram?			
Ans X 1. Marthandam	1s X 1. Marthandam		
× 2. Kolkata			
X 3. Sunderban			
√ 4. Wardha			
	0 15 15 22222224		
	Question ID : 6009298384		
Q.8 Which of the following is not a property of Falling film Evaporators	?		
Ans 1. More fouling problem			
2. More overall heat transfer coefficient			
X 3. Less residence time			
X 4. Higher vacuum is possible			
	Question ID : 6009298373		
	Question ib : 0003230373		
Q.9 The information on a food package conveys relevant data to consu does the package convey?	mers. What data		
Ans 1. How the product tastes			
2. The texture of the product			
3. Cooking instructions to be followed			
4. Ethics of the production process			
	Question ID : 6009298375		
Q.10 Costing is the techniques and processes of ascertaining:			
Ans X 1. Revenue			
2. costs			
X 3. Profit			
X 4. Loss			
	Question ID : 6009298377		
Q.11 Jelen (1985) maintains that primary packages should have certain facilitate the sale of products. Which of the following is NOT one of			
Ans X 1. Non-toxic			
2. Sanitary			
3. Lightweight			
4. Simple			
	Question ID : 6009298376		

Q.12	2 Skimmed milk is produced by separation of from milk in dairy processing.	
Ans	X 1. Cholesterol	
	X 2. Casein	
	X 3. Water	
	√ 4. Cream	
		Question ID : 6009298368
	The teaching of extension education at undergraduate level at the Agriculture, Calcutta University started in the year:	College of
Ans	X 1. 1940	
	2 . 1950	
	X 3. 1970	
	X 4. 1960	
		Question ID : 6009298381
		Question ib . 6009296361
Q.14	Which of the following is a technical function of packaging?	
Ans	1. Protection	
	X 2. Promotion	
	X 3. Display	
	X 4. Communication	
		Ougation ID : 6000209274
		Question ID : 6009298374
Q.15	Which of the following is NOT a property of linear programming mo	odel?
Ans	X 1. The model must have non-negativity constraint	
	X 2. The model must have an objective function	
	X 3. The model must have structural constraints	
	4. The relationship between variables and constraints must be bir	nary
		Question ID : 6009298380
	The quality of raw milk to be used should be judged with respect to	which one of the
	following criteria.	
Ans	1. Requirement of similar quality criteria for each end use	
	2. Relationship of milk quality with finished product quality	
	3. The geographical region from where milk has been sourced	
	X 4. The quality criteria appropriate for traditional technology	
		Question ID : 6009298366
		Q000001112 . 000020000

1. The teacher starts with theory and works up to practical.

Q.17 Which of the following is a feature of extension education?

2. Programmes are flexible and based on needs and expressed desires of people

3. Students study subjects.

4. Students need to adapt themselves to the fixed curriculum offered.

Question ID: 6009298383

Q.18 Which of the following factor is not important for evaporation process?

1. Heat insensitivity

2. Scale formation

3. Foaming

X 4. Concentration

Question ID: 6009298371

Q.19 The maximum permitted fat content in skimmed milk powder is:

Ans

1. 1 percent

2. 1.5 percent

X 3. 26 percent

X 4. 5 percent

Question ID: 6009298369

Q.20 Which one of the following nutrients is lacking in the Meat Food Group?

Ans

1. Dietary Fibre

2. B-Complex vitamins

3. Iron

4. Phosphorous

Question ID: 6009298370

Section: Discipline6

Q.1 The Special journal or subsidiary books are of 7 types. Which of the following is one of

1. Profit and loss account

X 2. Cash reconciliation

3. Sales book

X 4. Balance Sheet

28/04/2021

	2 Which of the following enzymes is NOT important in the Dairy industry?		
Ans	· · · · · · · · · · · · · · · · · · ·		
	2. Amylases		
	X 3. Lipases		
	X 4. Rennet		
		Question ID : 6009298390	
		Quodien is : cooperate	
Q.3	Which of the following cannot be said to be the key challenge effective implementation of Food Safety and Standard Act 200		
Ans	1. Infrastructure creation		
	X 2. Awareness creation		
	3. Market Standardization		
	X 4. Building research & development capacity		
		Question ID : 6009298397

Q.8	The term 'Biotechnology' was coined by:	
Ans	1. Karl Ereky	
	2. Gregor Mendel	
	X 3. Franklyn Stahl	
	X 4. James Watson	
		Question ID : 6009298387
		Question ib : 0003230301
Q.9	There are seven original SI units for basic physical quantities. Sele	ct the option that is
Ans	not an SI base unit. 1. Metre	
	× 2. Candela	
	X 3. Kilogram	
	4. Litre	
	4. Line	
		Question ID : 6009298393
Q.10	is directed towards a relatively large, heterogeneous an audience.	d anonymous
		,
Ans	1. Interpersonal Communication	
	2. Mass Communication	
	X 3. Organizational Communication	
	X 4. Group Communication	
		Question ID : 6009298404
	Which among the following is the goal of financial management?	
Ans	1. Conducting market survey	
	2. Keeping client Records	
	3. Profit Maximization	
	X 4. Managing Board of Management	
		Question ID : 6009298399
		Question ID . 0003230333

- 3. Consumer concept
- 4. Production concept

Question ID: 6009298401

Q.15 Dairy processing unit operations mainly involve few processes. Select the odd one which does NOT form the part of the process?

Ans

- 1. cooling
- 2. fermenting
- 3. heating
- X 4. separating

Question ID: 6009298392

Q.16 Which of the following is a Transactional function of marketing?

Ans

- 1. Product financing by providing capital.
- 2. Transportation storage and physical handling of goods
- 3. Personal selling
- 4. Selecting a distribution channel

Q.17 The consumer buying process has four steps. Which of the following is one of them?

Ans

- 1. Finding the source of the produce
- X 2. Product manufacturing ethics
- X 3. Problem creation
- 4. Information search and evaluation

Question ID: 6009298403

Q.18 The measurement systems and the instruments may be classified based upon the functions they perform. Select the option that does NOT form a part of them?

Ans

- 1. Releasing Function
- X 2. Signal Processing
- X 3. Indicating Function
- X 4. Recording Function

Question ID: 6009298394

Q.19 The thermal cycler also known as _____ machine or DNA amplifier is an equipment which is used for the amplification of a gene.

Ans

- X 1. RBC
- **X** 2. WBC
- **X** 3. RNC
- √ 4. PCR

Question ID: 6009298389

Q.20 Which of the following parameters is taken into consideration while fixing Legal Standards?

Ans

- X 1. Adulterants
- 2. Traditional technology
- X 3. Pricing strategy
- 4. Bacteriological quality

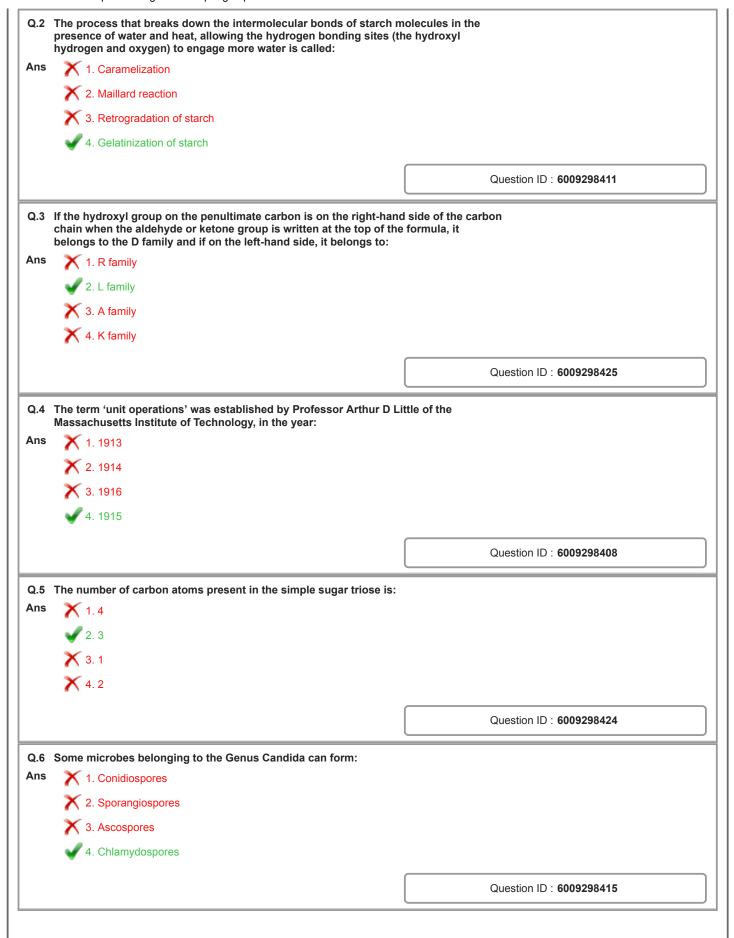

Question ID: 6009298386

Section : Discipline7

Q.1 The Kelvin and Celsius scales are related by which of the following function?

Ans

- \times 1. T(K) = T (°C)
- \checkmark 2. T(K) = T (°C) + 273.15
- \times 3. T(K) + 273.15 = T (°C)
- \times 4. T(K) = T + 73.15

Q.7 In a manufacturing unit, the production manager must have sound knowledge of _____ and their characteristics.

Ans

- X 1. the market
- **v** 2.
 - 2. materials
- X 3. products
- X 4. labour available

Question ID: 6009298422

Q.8 Food-borne molds are filamentous fungi that grow in the form of _____ that spreads rapidly and may cover several inches of area in a very short period.

Ans

- 1. Circular mass
- X 2. Zig-zag lines
- X 3. Straight unbranched filaments
- 4. tangled mass

Question ID: 6009298417

Q.9 Lami's Theorem is represented mathematically by _______.

Ans

$$\checkmark$$
 1. $\frac{P}{Sinα} = \frac{Q}{Sinβ} = \frac{R}{Sinγ}$

$$\times$$
 2. $\frac{P}{Sin\alpha} = \frac{Q}{Sin\beta}$

$$ightharpoonup$$
 3. $P = \frac{Q}{Sin\beta} = \frac{R}{Sin\gamma}$

$$\times 4. \frac{P}{\sin \alpha} = \frac{Q}{\sin \beta} = R$$

Question ID: 6009298410

Q.10 Kinematics is _____

Ans 1. a study of the basic laws for the displacement of a particle

X 2. a branch of mechanics which deals with the study of forces on a body which is at

- - -

X 3. a study of motion and forces on a body which is in motion

4. the study of forces and the displacement of bodies, without addressing the cause of movement

Q.11	Q.11 'A force of one newton produces an acceleration of on an object of mass 1 kg. Ans 1.2 m/s^2	
Ans		
	× 2. 4 m/s ²	
	✓ 3. 1 m/s ²	
	X 4. 3 m/s²	
		Question ID : 6009298406

Read the following passage and answer the questions given after it.

On March 2, professor Manoj Kumar Singh from Delhi University's department of anthropology got an email from a student in Lucknow about a few artifacts being found in Umra village in Sultanpur district. After assessment and excavation, a team of researchers has likely discovered a human settlement from 6th to 7th century BCE. Based on the terracotta structures, charred foodgrains, animal bones and pottery, an archaeologist from Archaeological Survey of India (ASI) reached the conclusion that the settlement could have been a part of the ancient trade route towards Allahabad.

Lucknow student, Kartik Mani Tripathi, discovered the ancient remains on land that was dug up for an Uttar Pradesh government-sponsored highway project. "Kartik sent mails to many authorities, including ASI, but got no response. He then emailed me on March 2. The next day, two of my researchers, Sudeshna Biswas and Ravinder, reached the spot," said Singh.

Biswas said the site was in a hamlet called Jawahar ka Purwa. "We found remains of pottery, potsherds, grains, bricks and bones and reported it to our professor. He then led an immediate preliminary investigation of the unreported remains. The site located on a raised platform close to Gomti river, might have been a permanent settlement," she added.

Singh said locals called the place "Itawah", or locale of bricks. "The villagers had found mounds of large unusual bricks. They had used mud, potsherds and other precious debris and bricks to build their houses. The bricks were huge and heavy compared with contemporary ones. Due to their longevity, almost every house in the area had used them," he added.

"The potsherds were of various designs and had been stylised with concentric circles, fishnet wavy patterns, circles, and geometric as well as non-geometric designs. The exploration yielded a variety of raw materials, predominantly red ware. The other relatively scarce sherds were of black ware and polished black ware," said Biswas. The archeologist with ASI said, "The photographs of the potsherds clearly show that they are of the northern black polished ware culture, which was prevalent in the first millennia BCE. We can safely say that the site belongs to around the 7th Century BCE in the Kushana period." "The entire region is rich in history, This was also the period when Buddha was travelling. In those times, cities were flourishing. This could be the part of a trade route, which makes it significant. We hope to find more such sites," he added.

SubQuestion No: 6

Q.6 The passage is mainly about:

Ans

1. the use of archaeologically precious materials by the villagers

2. the discovery of a human settlement from 6th to 7th century BCE

3. the email sent by a Lucknow university student to a professor

4. the excavations at the UP government-sponsored highway project site

Read the following passage and answer the questions given after it.

On March 2, professor Manoj Kumar Singh from Delhi University's department of anthropology got an email from a student in Lucknow about a few artifacts being found in Umra village in Sultanpur district. After assessment and excavation, a team of researchers has likely discovered a human settlement from 6th to 7th century BCE. SubQuestion No: 7

- Q.7 Find the correct order of events.
 - A. Preliminary investigation by researchers from Delhi University
 - B. Discovery of ancient remains by a student of Lucknow University
 - C. Involvement of Archaeological Survey of India (ASI)
 - D. Digging of land for making a highway
 - E. Reaching the conclusion that the remains belonged to 6th-7th century BCE

Ans

1. ABCDE

X 3. BADCE

X 4. DABEC

SubQuestion No: 8

Q.8 On which of the following findings did the archaeologists reach the conclusion that the findings belonged to 6th-7th century BCE?

Ans

1. Charred food grains

2. Big sized heavy bricks

3. Potsherds of polished black ware

X 4. Animal bones

SubQuestion No: 9

Q.9 Which of the following statements is NOT true according to the passage?

Ans

1. The settlement belonged to the period when Buddha was travelling.

2. The ASI concluded that the settlement found could have been a part of the ancient trade route towards Allahabad.

X 3. The villagers had found mounds of large unusual bricks.

4. Most of the potsherds found were of black ware and polished black ware.

SubQuestion No: 10

Q.10 Who discovered the ancient remains of the settlement first at the UP government highway project site?

Ans

1. A student form Lucknow University

2. A professor from the University of Delhi

X 3. Research scholars from the University of Delhi

4. An archaeologist from Archaeological Survey of India (ASI)
