Answer the questions based on the following passage:

Almost every one grows up in the world which is flooded with the mass media e.g. television, advertising, films, videos, billboards, magazines, movies, music, newspaper, and internet. Of all marketing weapons, advertising is renowned for its long lasting impact on viewer's mind, as its exposure is much broader. Advertising is a subset of promotion mix which is one of the 4P's in the marketing mix i.e. product, price, place and promotion. As a promotional strategy, advertising serves as a major tool in creating product awareness in the mind of a potential consumer to take eventual purchase decision. Advertising, sales promotion and public relations are mass-communication tools available to marketers. Advertising through all mediums influence audiences, but television is one of the strongest medium of advertising and due to its mass reach; it can influence not only the individual's attitude, behaviour, life style, exposure and in the long run, even the culture of the country.

The major aim of advertising is to impact on buying behaviour; however, this impact about brand is changed or strengthened frequently in people's memories. Memories about the brand consist of those associations that are related to brand name in consumer mind. These brand cognition influence consideration, evaluation, and finally purchases. The principal aim of consumer behaviour analysis is to explain why consumers act in particular ways under certain circumstances. It tries to determine the factors that influence consumer behaviour, especially the economic, social and psychological aspects. When young people choose advertising information and characters as their role models, they may not only identify with them but also intend to copy them in terms of how they dress and what they are going to buy.

In today's dynamic world, it is almost impossible for advertisers to deliver advertising message and information to buyers without use of advertising. Certainly, this may be because of the globalization and accessibility of hundreds of channels for the viewers of this modern era. Now a days, due to globalized economy, this made available a bulk of marketing stimuli to the modern consumers. More often consumerism describes the way of equating personal happiness, with purchasing material possessions and consumption in excess of one's need.

वैज्ञानिक प्रयोग की सफलता ने मनुष्य की बुद्धि का अपूर्व विकास कर दिया है। द्वितीय महायुद्ध में एटम बम की शक्ति ने क्छ क्षणों में ही जापान की अजेय शक्ति को पराजित कर दिया। इस शक्ति की युद्धकालीन सफलता ने अमेरिका, रूस, ब्रिटेन,फ्रान्स आदि सभी देशों को ऐसे शस्त्रास्त्रों के निर्माण की प्रेरणा दी कि सभी

भयंकर और सर्वविनाशकारी शस्त्र बनाने लगे। अब सेना को पराजित करने तथा शत्रु-देश पर पैदल सेना द्वारा आक्रमण करने के लिए शस्त्र-निर्माण के स्थान पर देश के विनाश करने की दिशा में शस्त्रास्त्र बनने लगे हैं। इन हथियारों का प्रयोग होने पर शत्रु-देशों की अधिकांश जनता और संपत्ति थोड़े समय में ही नष्ट की जा सकेगी। चूँिक ऐसे शस्त्रास्त्र प्राय: सभी स्वतन्त्र देशों के संग्रहालयों में कुछ न कुछ आ गये हैं, अत: युद्ध की सिथित में उनका प्रयोग भी अनिवार्य हो जायेगा। अत: दुनिया का सर्वनाश या अधिकांश नाश तो अवश्य हो ही जायेगा। इसीनिए नि: शस्त्रीकरण की योजनाएँ बन रही हैं। शस्त्रास्त्रों के निर्माण में जो दिशा अपनाई गई, उसी के अनुसार आज इतने उन्नत शस्त्रास्त्र बन गये हैं, जिनके प्रयोग से व्यापक विनाश आसन्न दिखाई पड़ता है। अब भी परीक्षणों की रोकथाम तथा बने शस्त्रों के प्रयोग के रोकने के मार्ग खोजे जा रहे हैं। इन प्रयासों के मूल में एक भयंकर आतंक और विश्व-विनाश का भय कार्य रह कर रहा है।
